

Professional Summary

Hi, I'm Subash a person who didn't even know how to use Microsoft Word in high school, but now I've grown an enthusiasm for graphics design and cybersecurity. I've made a lot of progress in recent years in the field of design and cybersecurity. Outside of tech, I love playing football, volleyball, and esports, which has taught me teamwork, strategy, and adaptability. Always curious and eager to learn, I enjoy taking on new challenges, growing along the way, and pursuing my dream of becoming a great Designer and Cybersecurity Professional.
